

**QUALITY PRODUCTS FOR  
IBM PERSONAL COMPUTERS**

## PIC-1

**NEW from APSTEK**

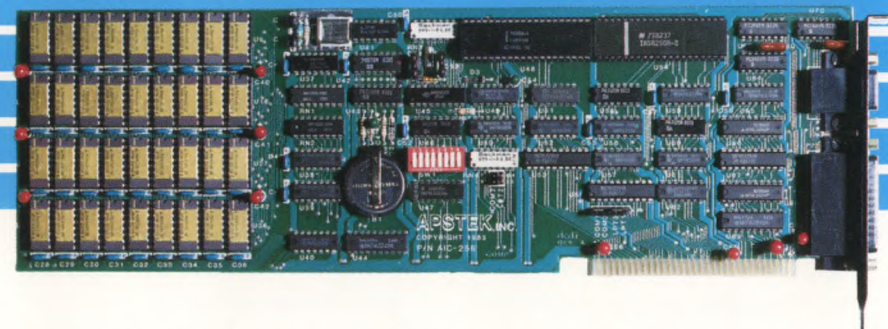

### THE PRINTER INTERFACE AND CLOCK CARD FOR YOUR IBM PC OR PC-XT

- **PARALLEL PRINTER PORT**
- **CLOCK/CALENDAR**  
(with time/date set software)
- **FITS SMALL SLOT IN IBM PC-XT**

## PIC-1

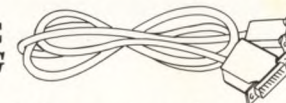

A simple answer for completing your IBM Personal Computer. Small... fits the short slot in the IBM PC-XT. Printer Port may be configured as LPT1:, LPT2: or LPT3:. The Port may be configured for Input if desired. Printer interrupt level is selectable. Our clock features a long-life easily replaced lithium battery for maintaining time and date when system power is off. Clock software is included.

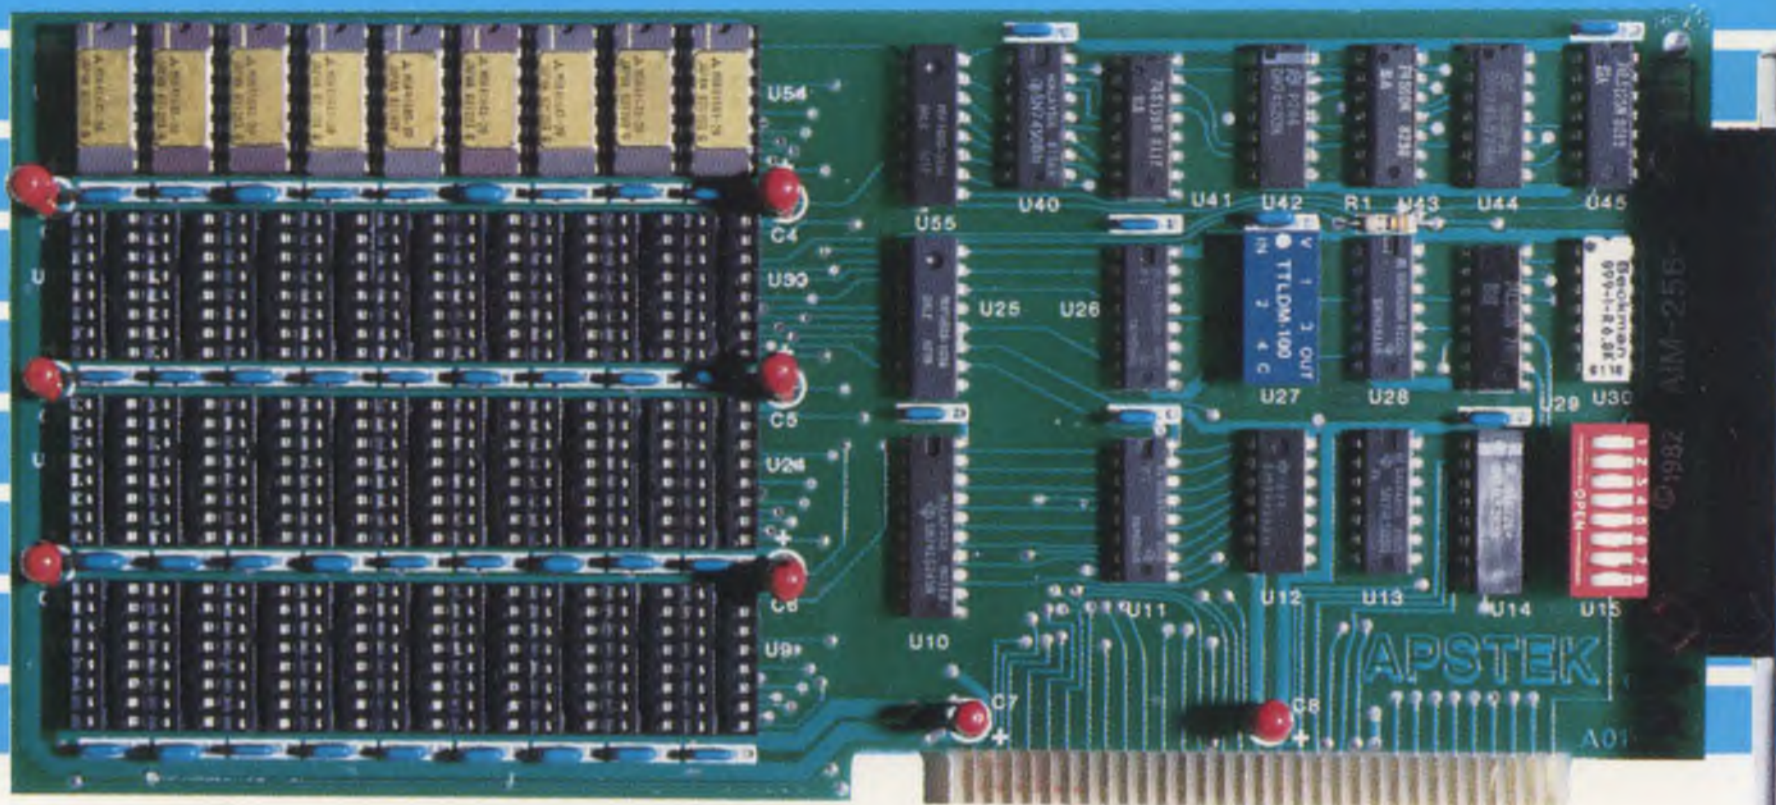

## AIC-256

### AIC-256... ALL YOU'LL EVER WANT ON A SINGLE CARD FOR YOUR IBM PC OR PC-XT

- 64K-256 RAM
- Asynchronous Communications Port
- Parallel Printer Port
- 6 ft External RS232 Cable
- Clock / Calendar with Battery Back-up
- Software Includes: Time / Date Set, Electronic Disk, Print Spooler and Diagnostics
- **64K - 256K MEMORY**...a proven, reliable design with parity checking. Addressable on any 64K boundary. Simple expansion in 64K increments (no special components required...only RAM chips).
- **ASYNCHRONOUS COMMUNICATIONS PORT (RS232)**... may be configured as COM1: or COM2:. Selectable interrupt level. Supplied with bracket-mounted 9-pin connector and 6 ft. external connecting cable for full RS232 and IBM PC compatibility.
- **PARALLEL PRINTER PORT**...may be configured as LPT1:, LPT2: or LPT3:. Selectable interrupt level. Bracket-mounted standard DB25S connector, identical to that used by IBM.
- **CLOCK/CALENDAR**...with reliable long-life lithium battery for maintaining time and date when system power is off. Includes time and date-set software.
- **6 ft. EXTERNAL RS232 CABLE INCLUDED. NO INTERNAL CABLING IS USED.**
- **INCLUDES:** electronic disk, print spooler and diagnostics software.

## AIM-256

### MEMORY EXPANSION CARD FOR THE IBM PC AND PC-XT

- 64K-256K RAM
- Simple Plug-In Expansion, no "special" parts required
- Parity Generation and Checking
- Software Includes: Electronic Disk, Print Spooler and Diagnostics
- Switch Selectable Starting Address, on 64K Boundaries

The AIM-256 memory expansion card allows you to exploit the large address space of the IBM Personal Computer. It is the time proven memory card that serves the need for those not wanting other features. The AIM-256 provides that extra memory where needed in applications such as Word Processing, Spreadsheets and Data Base Management.

ALL APSTEK PRODUCTS ARE FULLY COMPATABLE WITH THE IBM PERSONAL COMPUTERS INCLUDING THE PC-XT. APSTEK PRODUCTS ARE PERFORMANCE TESTED AND ALL CARRY A FULL 1-YEAR WARRANTY. YOU CAN DEPEND ON APSTEK QUALITY.
